ASSEMBLY & CONFIGURATION OF PACKAGING:

Place the 2 x filled inner packagings into the allotted spaces inside the box. (Ensure they are in a stable and upright position and that the foam wall inserts are in place). Place foam layer pad over the glass bottles and close the plastic bag. Close and seal the box using 48 mm pressure sensitive self adhesive tape in the same manner that the base of the box has been sealed. Label the box as required.

(Make sure that the labels or any other markings are not obliterated or obscured in any way).

Note: The use of other packaging methods or components may render the approval of this package invalid.
