Packaging System

FALCON TEST ENGINEERS REPORT No.: 4023

CONFIGURATION OF PACKAGING:

Four absorbent pads and the re-sealable plastic bag are placed inside the 'Hazpak' Medi-pouch. The pouch is sealed following printed instructions and rolled lengthways and placed inside fibreboard box. The top flap of the fibreboard outer box is closed and secured by using the self-locking tab. Add the required amount of absorbent material if specified. Label the box as required.

(Make sure that the labels or any other markings are not obliterated or obscured in any way).

Note: The use of other packaging methods or components may render the approval of this package invalid
